We are proud to present our 2018-2019 Heavy Stone Rings catalog! This year, we are excited to introduce several exciting new designs that are setting the trend! As always, we strive to make finding that perfect band a seamless, enjoyable experience.

This year has brought growth and it is exciting to see our customers succeed. We will continue to touch base with you through our monthly newsletter, updating you on the latest designs and trends. As our product line continues to grow, our catalog will feature top-selling and new designs. All designs, both new and existing, will be available on our website. www.heavystonerings.com

Traditionally, contemporary bands have been a little wider and thicker. However, we have seen a rise in popularity for thinner, more narrow bands. To accommodate this demand, we have created a new collection which offers something new and different. The Minimalist Collection is offered in both precious and contemporary metals.

As we grow, we always seek improvement. The feedback we receive from you is much appreciated, as we strive to exceed your highest expectations.

If your travels ever bring you to the Beehive State (Utah), we would love to see you and show you how and where our rings are made. Most of all, we are grateful for our relationship with you and the opportunities your business provides us to work with you.

What better way to personalize your jewelry than with a fingerprint! Fingerprint jewelry is a creative way to remember that special someone, whether for your wedding band or as a keepsake. Your customers will cherish this unique creation.

Contact us for details on how to submit your fingerprint.

Fingerprint ring is available in any style and metal.

Standard Laser Engraving:

Our laser technology allows your customer to be creative. We can do any font, any size, and as many characters as you want.

Deep Engraving:

We can also do patterns and images, inside or out. Supply us with a black and white JPEG image and we will take it from there. The sky is the limit!

Pattern Engraving:

We can work with you to make personalized jewelry. Send us your images or have one of our graphic designers use your ideas to create something special.

Hand Written Notes:

Another option for personalization, send us a black and white JPEG image of a hand written note or signature and have it engraved.
