#### **OUR MISSION**

Make cool stuff.

### HOW TO USE THIS BOOK

It's a good time to carry cool jewelry, especially when you care about heirloom-quality pieces designed and made in America.

This book is a taste of what we're most excited about - our new and bestselling designs in both modern and precious metals. Enjoy!

### SESINICA SES

# **SERVICES PRICING**

# WHAT ABOUT RESIZING?

Non-custom modern metal pieces (the base is modern metal rather than precious metal) come with a complimentary lifetime resizing policy. If your customer gains or loses a little weight, we've got you covered.

Custom modern metal pieces will be resized if an optional warranty is added to the piece at the time of purchase. It's 30% of the purchase price.

Non-custom or custom precious metal pieces (the base is precious metal) can be resized for a fee. It's 30% of the cost of the piece at the current gold market per use.

# DO YOU REFURBISH YOUR PRODUCT?

Like you, we stand behind our work. We will always cover any defects in craftsmanship or materials. As for normal wear and tear, here's the scoop to get your piece refurbished:

- NON-CUSTOM MODERN
   METALS: We will quote what
   it takes to get your piece back
   to looking like new or
   completely replaced.
- CUSTOM MODERN METALS:
   These feature an optional upfront warranty that covers refurbishing (cost is 30% the purchase price).
- NON-CUSTOM OR CUSTOM PRECIOUS METALS: Precious metals pieces can be refurbished for a fee. Give us a call for a quote.

# SNEDIS

Heavy Stone 426 E 1750 N STE F Vineyard, Utah 84059

# HOW TO SUBMIT A PRODUCT FOR RETURN

Giving us a call or shooting us an email first is always a good idea, so that we can craft a plan together. Shipping fees are customer responsibility.

- WARRANTY If pre-approved for warranty coverage, send your piece to Heavy Stone.
   We will gladly service your item per our policies.
- REPAIRS For a better experience, please send us images and a description of damage prior to sending in your product.
   We can then provide a quote and let you know an estimated delivery date. We want your approval before we proceed.
- RETURNS If you change your mind on a non-custom item, a 35% restocking fee accompanies any return. Custom pieces cannot be returned.
- EXCHANGES If you change your mind on an unworn, non-custom item and prefer to exchange for another piece, we can certainly help with that.

# WHAT IS HEAVY STONE NOT LIABLE FOR?

Stone setting can be tricky. We cannot be held liable for customer-provided stones damaged during setting.

Cerakote and engraving work will naturally wear over time.
Touch ups or re-dos will need to be repurchased. Don't worry. We keep our fees fair.

Natural elements like antler, wood, and bone will vary from item to item. The variety is the adventure.

Our products are splashresistant not waterproof. We do not generally cover water damage. Good practice should be followed to ensure the integrity of your piece over time.

### IN STORE PROGRAMS

# THE ALL IN KIT

80-piece kit for your total modern metal, in-store solution. Features new and bestselling designs for both in-case and understock. Designs come from across 13 collections, including Meteorite, Wood, Antler, Dinosaur, Edge, Cerakote, Carabiner, Essentials, Damascus, Two Tone, Mixed Metal, and Cuff.

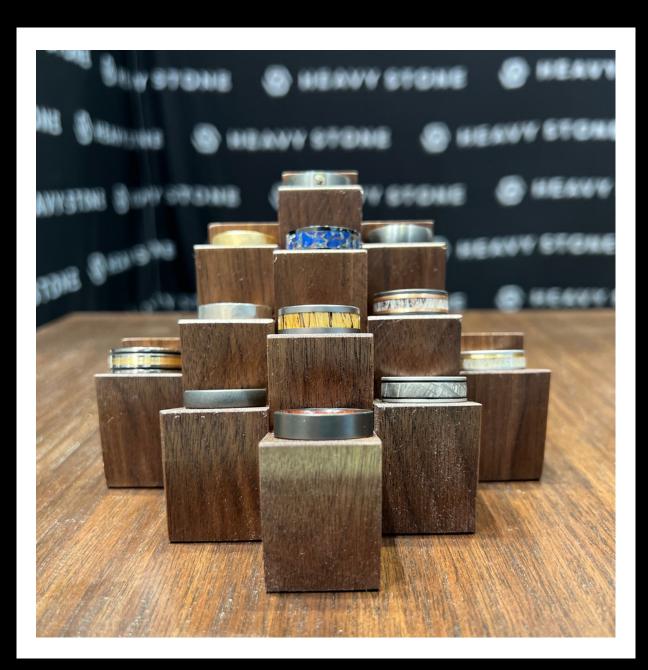

### IN STORE PROGRAMS

# THE LOOKER KIT

16-piece program that looks absolutely fantastic in a case. The Looker features our favorite modern and precious metal pieces in one great looking, pre-merchandised solution. All styles are unique from those in other kits, so you can start here or build on other programs.

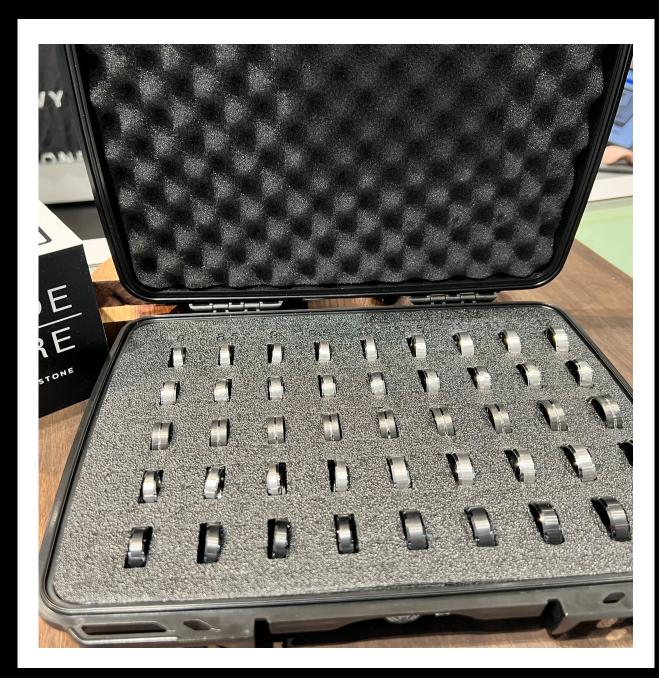

# IN STORE PROGRAM

# **ESSENTIALS KIT**

An absolute must-have, the Essentials kit is our 45-piece undercounter selling system. It features five of our bestselling styles in a smart assortment of high-turning modern metals. All styles come in sizes 8-12, including half sizes, in a Pelican carrying case.

### IN STORE PROGRAMS

# **HSR + CHRIS PLOOF COLLECTION**

Featuring Damascus Stainless Steel with yellow gold accents, this 17-piece program features bracelets, cuffs, pendants, and rings from the creative teams of Heavy Stone and Chris Ploof.

Hand forged in America.

# MODERN METALS

# THE MARKET

There was a time when "alternative" or "contemporary" metals were reluctantly sold by retail jewelers for pretty much one of two reasons: 1) price point and 2) durability.

Although we still think modern metals offer the ultimate in value, the truth is - we've come such a long way. Today, people buy modern metals because they're cool. Plain and simple.

Black has become the go-to color on grooms' fingers, men are adopting layered looks and wearing ever more jewelry, and antler, wood, meteorite, dinosaur bone, lapis, opal, and more are favorite design accents in both modern and precious metal designs. The custom work in our shop is incredible.

Modern metals have become the canvas men and women use to tell stories about love, adventure, passion, and forgiveness. At Heavy Stone, we're evolving our business every day so that we can do those stories justice. Here's to tomorrow.
